WORK EXPERIENCE

Collaboration Journey Project, BeNet

UX Designer | Student Assistant

January 2024 - Present

- Part of a team exploring improvements in collaboration among students, mentors, and external partners through the 'Collaboration Journey' project.
- Responsible for implementing new functionality, design, and further development of a functional prototype in Figma.
- Actively contributed to enhancing the structure, flow, and communication on the Be-Net platform.
- Organized and led user testing activities to evaluate platform performance, collaborating closely with the development team to convey findings and suggestions for improvement.

Vietnamese Student Association in Trondheim (VSAIT)

Web Designer

October 2022 - January 2023

Re-designed the application for VSAIT according to UI and UX methodology for interactable platforms such as computer, tablet and mobile.
